Background:

Praan Naturals is pleased to offer Organic Coconut Sugar in both 16 Mesh and 50 Mesh grain sizes. Organic Coconut Sugar provides a beautiful and natural alternative to synthetic exfoliants. The light to medium brown hue of Organic Coconut Sugar lends a rich, natural color to your finest exfoliation products.

Our premium quality Organic Coconut Sugar is produced using nectar collected from the unopened inflorescence of the *Cocos nucifera* (coconut) trees raised by our manufacturing partner on its sustainable plantation.

Organic, Ethical and Sustainable Sourcing:

The IUCN Red List of Threatened Species (International Union for Conservation of Nature and Natural Resources) has not evaluated Coconut (*Cocos nucifera*), most likely because coconut trees are so abundant. Praan Naturals Organic Coconut Sugar is a conscientious alternative to synthetic exfoliants and to exfoliants that are derived from plant species that are classified as threatened or endangered.

As with all of our premium quality organic ingredients, Praan Naturals Organic Coconut Sugar is certified organic by CCOF, a USDA-accredited organic certifying agency. It fully meets USDA organic regulations.

Our manufacturing partner raises the organic coconut trees on their plantation while preserving the natural surroundings. They support sustainable, organic practices, and they strive to reduce their environmental footprint.

Organic Coconut Sugar is Well Suited for the Following Personal Care Applications:

- Exfoliators
- Cleansers

Recommended Usage Rate: 1-100%.

Uses:

Praan Naturals offers both 16 Mesh and 50 Mesh Organic Coconut Sugar grain sizes. Both vary in the degree of exfoliation offered.

16 Mesh Organic Coconut Sugar is a fine grain that is best suited for foot scrubs and general exfoliation applications.

Much finer than 16 Mesh, Praan Naturals Organic 50 Mesh Coconut Sugar is a very fine grain that is best suited for applications that require gentler exfoliation.

Both mesh sizes of our Organic Coconut Sugar feature a subtle, naturally sweet aroma that will complement the aroma of most formulations. They are well suited for incorporation into your finest exfoliating cleansers, scrubs, polishes, soaps and other exfoliating treatments.
