

Ethically Sourced Ingredients

HIMALAYAN PINK SALT

Available in Fine and Medium Grain Sizes.

Suitable for beauty and personal care applications.

INCI: Sodium Chloride

Shelf Life: Stable (Keep Away From Moisture)

Background:

Himalayan Pink Salt is a crystal rock salt harvested by hand from the ancient rock salt beds that lie under the Himalayan mountain range. Spanning six countries, the Himalayas encompass the tallest peaks in the world.

Himalayan Pink Salt is carefully harvested by hand, processed to remove impurities, crushed to the appropriate grain size and then stored so that the salts retain their purity, freshness and their natural balance of minerals.

Himalayan Pink Salt Properties:

- Beautiful, Rosy-pink, Speckled Hue
- Fine and Medium Grain Sizes Available
- Helps Make the Skin Feel Revitalized
- Helps Soothe the Skin
- Natural Exfoliant
- Leaves Skin Looking Smoother
- Supports Relaxation When Used in Bathing Formulations

Uses:

Himalayan Pink Salt helps to support balanced skin and, makes it look and feel smoother. The salt's mineral composition is superior to sea salt for use in bath salts and other personal care products intended to support healthy muscles and promote relaxation. The composition and texture of Himalayan Pink Salts makes it an ideal choice for body exfoliating products.

Grain Sizes:

- **Fine** - Suited for bath soaks, exfoliating body care products and mouth/dental rinses. Average Particle Size: 2mm.
- **Medium** - Ideally suited for bath salt and bath soak formulations. Medium grain salts can also be added to bar soaps to give a unique, beautiful and exfoliating texture to the bars. Average Particle Size: 4-5mm.

Himalayan Pink Salt is a Highly Recommended Ingredient in Personal Care Products Intended for the Following:

- Skin Care
- Oral Care
- Aromatherapy
- General Wellness

Standard Packaging: Available in boxes.
