

MACADAMIA NUT OIL

Suitable for beauty and personal care applications.

INCI: Macadamia Integrifolia (Macadamia) Nut Oil

Extraction: Expeller Pressed

Processing: Filtered

Shelf Life: 2 Years

Origin: Australia

Background:

Macadamia trees are a beautiful evergreen species prized for the flavorful and highly nutritious nuts that they produce. Originating in Australia, they are also known as Queensland Nuts. The nuts are a rich source of healthy lipids, vitamins, minerals and protein.

Macadamia nuts are one of the most difficult of nuts to extract from their shells. After carefully harvesting, husking and shelling the nuts, the nuts are then cold pressed below 45 degrees Celsius. The oil is then filtered but is not refined or deodorized. Praan Naturals Macadamia Nut Oil is then carefully packaged and stored to maintain the purity, freshness and beneficial properties of this highly nutritive oil.

Uses:

Macadamia Nut Oil is a highly emollient oil that is primarily comprised of monounsaturated fatty acids including 14-25% Palmitoleic Acid. Uncommon within most vegetable oils, Palmitoleic Acid is an Omega-7 fatty acid that is a natural component of skin sebum and is highly beneficial in moisturizing and supporting healthy skin. Macadamia Nut Oil protects the skin, lips and hair from moisture loss when used in cosmetics and personal care product formulation. Within hair care applications, it helps moisturize and soothe the hair and scalp. It also helps to restore dull and damaged hair and provides natural shine. Due to its composition, viscosity and smooth glide when applied to the skin, Macadamia Nut Oil is also an exceptional lipid for use within massage applications.

Macadamia Nut Oil is Perfectly Suited for the Following Personal Care Applications:

- Skin Care
- Hair Care
- Nail Care
- Lip Care
- Cosmetics
- Massage
- Aromatherapy

Properties:

- Cold Pressed
- Filtered
- Unrefined
- Highly Moisturizing
- Emollient
- Pale Yellow to Golden Yellow Oil
- Characteristic Nutty-Lipid Aroma
- Moderate Absorption Speed
- Medium to Thick Viscosity
- See Spec Sheet for Fatty Acid Composition

Recommended Usage: 1-100%

Standard Packaging: Available in drums and pails.
