

Ethically Sourced Ingredients

JOJOBA PRODUCTS

Although jojoba is generally categorized with vegetable oils, jojoba is actually a liquid wax. Jojoba offers the traits of both an oil and a wax. Our line of clear and naturally golden jojoba is available both in organic and conventional types. Our jojoba line is highly penetrating and closely resembles the natural sebum of the skin. Jojoba is a good choice for inclusion within facial formulations intended for all skin types as it helps to balance the skin's natural oil production.

Jojoba esters are 100% natural, oil free esters from the jojoba plant. They deliver emolliency, lubrication and binding in lotions, creams and other products while maintaining thickness or stick structure. Jojoba meal can be added to your cosmetic and soap formulations to provide gentle, non-abrasive, natural exfoliation.

Our 100% natural pure jojoba wax beads provide gentle exfoliation without leaving microlacerations on delicate skin. These soft, tiny, colorful spherical beads are superior to ground nut shells and pumice powders when used in products for the face and body.

JOJOBA WAX BEADS

- Baby Blue
- Blue
- Brown
- Green
