For all other applications, or use at higher concentration levels, a new evaluation will be required. The IFRA standards regarding use restrictions are based on safety assessments by the Research Institute for Fragrance Materials (RIFM) Expert Panel (REXPAN), and are enforced by the IFRA Scientific Committee. Evaluation of individual fragrance materials is made according to the safety standards contained in the relevant section of the IFRA Code of Practice.	
The above mentioned fragrance products contain ingredients which are NOT considered GRAS (Generally Regarded as Safe) as a Flavor Ingredient.
