Storage

Requirements for Storage Areas and Containers:  
• Store in a cool, dry location, in a sealed container in a well ventilated area away from sources of ignition.

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Engineering Controls:  
• Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.  
• Ensure that eyewash stations and safety showers are proximal to the work-station location.

Personal Protection

Eye:  
Chemical splash goggles or face shield should be worn.

Skin/Body:  
Lab coats, boots and chemical resistant gloves should be worn.

Respiratory:  
Use adequate ventilation or NIOSH-approved respiratory devices if vapor concentration is high due to heat.

Ventilation:  
Handle in well ventilated areas. Ventilation meeting ACGIH Standards should be employed.

Other:  
Evaluate need based on application. Slip proof shoes may be worn where spills may occur.
