Origin: Tunisia

Background:

Praan Naturals Organic Virgin Date Kernel Oil is cold pressed from the kernels of the Deglet Nour variety of dates. Commonly known as the Date Palm, the species *Phoenix dactylifera* is a palm tree that is cultivated in regions of Africa, the Middle East and Asia. The Deglet Nour variety of dates are widely sought after for their delicious flavor and soft consistency. They are also commonly incorporated into desserts and are used to create natural sweetening alternatives to sugarcane and honey.

Praan Naturals Organic Virgin Date Kernel Oil is an ethically sourced, nutritive and stable oil that is ideally suited for the finest personal care formulations. It is 100% pure and is expertly cold pressed at a verified maximum pressing temperature of 118.4°F (48°C). It is then carefully filtered, packaged and stored to maximize its shelf life and protect its nutritive properties.

Organic, Ethical and Sustainable Sourcing:

Praan Naturals Organic Virgin Date Kernel Oil is cold pressed from the kernels of Deglet Nour dates as a derivative (secondary) product, ensuring that there is zero-waste. As with all of our premium quality organic ingredients, Praan Naturals Organic Virgin Date Kernel Oil is certified organic by CCOF, a USDA-accredited organic certifying agency. It fully meets USDA organic regulations.

The IUCN Red List of Threatened Species (International Union for Conservation of Nature and Natural Resources) has not evaluated the Date Palm (*Phoenix dactylifera*), most likely because this date species is so abundant.

Praan Natural's manufacturing partner maintains ethical and sustainable business practices by protecting biodiversity and their local environment, ensuring fair trade practices and striving for zero-waste. They maintain a strong mission to empower women and enhance the lives of their local communities.

Standard Packaging: Available in pails and drums.
