

MAGNESIUM CHLORIDE FLAKES

Suitable for beauty and personal care applications.

INCI: Magnesium Chloride

Extraction: Ecologically Mined and Produced

Shelf Life: Stable

Origin: Tibet

Background:

Although Magnesium is a necessary mineral for health and wellness, it can be difficult to consume adequate levels of Magnesium simply through the diet. Consumers are growing in awareness of the necessity and numerous benefits of this very important mineral.

Products such as Magnesium Chloride Oil produced from Magnesium Chloride Flakes can be absorbed transdermally and can be effective alternatives to taking Magnesium supplements internally.

Transdermal use of Magnesium Chloride eliminates the risk of digestive upset that can occur when taking magnesium supplements internally. Magnesium Chloride Flakes can easily be combined with boiling distilled water to produce Magnesium Chloride Oil. Alternatively, the flakes can be incorporated into a wide array of topical and bath formulations.

The magnesium chloride used in the production of Praan Naturals Magnesium Chloride Flakes is ecologically collected from salt mines in the Himalayas. The magnesium is physically collected and is not obtained through fracking.

Magnesium Chloride Flake Properties:

- Exceptional Purity
- Independently Tested
- Approved for Transdermal Applications
- Magnesium Chloride Composition: 47% Min
- Water Soluble
- White
- Characteristic Flake Consistency
- Odorless

Uses:

Magnesium Chloride Flakes are naturally deodorizing when incorporated into deodorant formulations. Magnesium is helpful in supporting healthy sleep, managing stress and anxiety and helping to minimize fatigue. Within massage and sports applications, Magnesium Chloride Oil and other formulations made using Magnesium Chloride Flakes can be helpful in supporting healthy muscles and joints. Products containing Magnesium Chloride Flakes may also help to control and support oily, red or irritated skin. Some individuals experience a tingling sensation when first using formulations made using Magnesium Chloride Flakes. However, the tingling is temporary for most individuals and generally subsides after using the product several times. This description mentions only a few of the remarkable benefits of Magnesium Chloride Flakes. We encourage you to research the numerous other applications for Magnesium Chloride Flakes.

Magnesium Chloride Flakes are Perfectly Suited for the Following Personal Care Applications:

- Skin Care
- Cosmetics
- Massage
