

ROASTED COFFEE OIL

Suitable for beauty and personal care applications.

INCI: Coffea Arabica (Coffee) Seed Oil

Extraction Method: Cold Pressed

Processing Method: Filtered and Refined

Shelf Life: 2 Years

Origin: Brazil

Background:

Praan Naturals Roasted Coffee Oil is expeller pressed from premium quality roasted beans harvested from *Coffea arabica* shrubs that have been cultivated on Brazilian farms. A member of the Rubiaceae plant family, several species of the genus *Coffea* exist. *Coffea arabica* is preferred for its rich, robust flavor and aroma.

Coffee plants are native to the tropical regions of South America, Asia and Africa. The *Coffea arabica* plant is a small shrub that typically reaches 3-4 meters in height, and the seeds are commonly referred to as beans.

Roasting the beans changes the chemical and aromatic composition of the beans and results in the characteristic, rich, robust flavor that coffee is widely known for.

Ethical and Sustainable Sourcing:

Coffea arabica is classified as an endangered species by The IUCN Red List of Threatened Species (International Union for Conservation of Nature and Natural Resources).

Praan Naturals Roasted Coffee Oil is produced from Brazilian coffee beans that have been conscientiously cultivated on farms.

After pressing, the oil is then filtered, packaged and carefully stored to maintain the purity, freshness and beneficial properties of this remarkably nutritive oil.

Roasted Coffee Oil is Well Suited for the Following Personal Care Applications:

- Skin and Lip Care
- Hair Care
- Cosmetics
- Aromatherapy

Recommended Usage Rate: 1-100%

Standard Packaging: Available in steel drums.

- Delicious, Roasted Coffee Aroma
- Medium Viscosity
- Excellent Absorption
- Non-Greasy Texture
- Comprised of Approximately 45% Saturated, 46% Polyunsaturated and 8% Monounsaturated Fatty Acids
- See *Spec Sheet for Detailed Fatty Acid Composition Data*

Uses:

Praan Naturals Roasted Coffee Oil features the deep hue and robust aroma of roasted coffee.

This richly aromatic vegetable oil is an effective way to incorporate the natural aroma of coffee into your finest skin and hair care formulations.

Roasted Coffee Oil is one of the most abundant sources of palmitic acid, a saturated fatty acid that offers numerous benefits to the skin. Containing an almost equal proportion of both saturated and polyunsaturated fatty acids, Roasted Coffee Bean Oil is a highly emollient, moisturizing and protective lipid that helps protect delicate skin and lips against the elements without feeling overly heavy or greasy.

It is also an exceptional choice for products intended to condition and protect the scalp and hair.
