Ethically Sourced Ingredients

BERRY SEED OILS

Berry Seed Oils are gaining increasing attention by cosmetic manufacturers and the spa and aromatherapy industries because they are highly nutritive and are rich in essential fatty acids and antioxidants. Berry Seed Oils, most notably Red Raspberry and Cranberry Seed Oils, are exceptionally stable and possess a longer shelf life than most other oils with a significant composition of essential fatty acids.

Praan Naturals offers a selection of nutrient rich berry oils that are highly sought after for use in innovative personal care products. They are recommended for inclusion in body and facial creams, eye creams, lip products, hair care products and sun care formulations where emollience, conditioning and high EFA content are desired.

Our superior quality Berry Seed Oils are carefully produced and packaged to maintain the purity, freshness and beneficial properties of these highly nutritive oils.
