

Ethically Sourced Ingredients

PRESERVATIVES

Praan Naturals supplies a growing selection of oil and water soluble natural preservatives including Grapefruit Seed Extract, Rosemary Oil Extract, Vitamin E Mixed Tocopherol and Lactobacillus Ferment. These naturally derived ingredients can help to preserve and maintain the freshness of your formulations against bacteria, oxidation and rancidity.

It is each manufacturer and artisan's responsibility, however, to ensure that the quantity and choice of preservatives used are adequate to properly protect the formulation. Praan Naturals recommends that all formulations be challenge tested by an independent laboratory. To request a list of labs that can perform product testing upon your formulations, please contact Praan Naturals.

CONVENTIONAL
